

THE BENEFITS OF VEHICLE TRACKING ARE RESERVED PURELY FOR FLEET MANAGERS RIGHT?

Wrong. Vehicle tracking touches almost every function of a business. So from reception to risk, HR to Finance, you'll find it will help you become an all together more efficient and effective organisation. Here's an at a glance snapshot of how Navman Wireless transforms the day-to-day lives of your key people.

HOW FLEET MANAGEMENT BENEFITS YOUR PEOPLE

Finance Director

Vehicle tracking gives you incredible visibility of the most expensive resources business incur; people and vehicles. With that visibility comes control and that means quick wins in terms of fuel savings and productivity – music to the ears of those responsible for finance.

Sales team

Vehicle tracking helps sales teams use their time as effectively as possible and reduce unnecessary mileage. They'll begin making more efficient journeys to prospects and customers and all mileage is captured automatically saving admin time.

Accounts Dept.

Vehicle tracking can automate many slow manual tasks, helping speed up billing and dealing with customer queries. From automatic timesheet and mileage claim reports to guaranteed proof of attendance at a job, accounts teams will benefit greatly.

Fleet Manager

Operating a fleet is so much easier with Navman Wireless on board. Fleet Managers see where fuel costs can be cut, overtime reduced and driver safety improved. It also keeps you in line with scheduled maintenance requirements, keeping vehicles safe and more efficient to operate.

Human Resources

Your HR people will have access to valuable information that ensures drivers comply with the latest legislation. Vehicle tracking also provides an invaluable method of monitoring employee performance.

Risk Manager

Vehicle tracking provides many safeguards to ensure your company maintains its duty of care to employees. It allows those responsible for risk to keep a close eye on speeds, working time and vehicle safety ensuring you're always on the right side of the law.

Reception

Vehicle tracking gives your first line support team visibility over all your vehicles, meaning they can instantly answer customer queries and improve customer service and satisfaction.
